

Introducing . . .

## Bob and Janet Lehman

### Church Planting Consultant

#### **FIELD**

Church Planting has been called the extreme sport of ministry. Studies show that church planting is the most effective form of evangelism known to man, and there is no better way to make a long-term contribution to the health of any community. Therefore Bob's field mission is to develop and implement vision for suburban/rural church planting across the United States —seeking church planting opportunities and overseeing church planter development and assessment.

He is committed to seeing Great Commission church plants driven by biblical purposes that have the Great Commandment (Matt. 20:36-39) as its motive and the Great Commission (Matt. 28:18-20) as its mission.

#### **FAITH**

Bob became a Christ follower his sophomore year of college at Northern Arizona University. An incredible chain of events both positive and negative caused Bob to consider the claims of Christ. After asking Christ to be his Lord and Savior, Bob became part of the growing leadership of the Campus Ambassador ministry at Northern Arizona University.

#### **FAMILY**

Bob and Janet married in 1973 and have been a team in life and ministry ever since. They have four children and three grandchildren.
